Active Advising

The Passive Trap

- Advising is inherently **passive**
 - Answer questions
 - Maintain resource library
 - Respond to requests/situations
 - Host events

But....

Elements of Active Advising can improve
the work of your advising center.

Annual Planning

- Make a list of priorities
- Plan to match each priority

Sample Priority List

1. More students applying for Opportunity Grants
2. More outreach to underserved populations
3. Bring more people into EAC
4. Service to host organization
5. Reporting to REAC/Country Coordinator
6. Relationship with Public Affairs

Address each priority

1. More OP – OP seminars each month in fall
2. More outreach – Plan + budget outreach for down time according to academic calendar
3. More EAC contact – start free TOEFL course
4. Host organization
5. REAC/Country Coord
6. Public Affairs

Frame projects to appeal to each stakeholder.
