

Virtual Engagement – Getting More out of Virtual Advising

Moving Forward with Today's Technology -
myUface

**BRINGING STUDENTS AND
UNIVERSITIES TOGETHER**

I want to study at a U.S. university but...

.... I'm not sure how to find a university

.... I'm confused by all the sites online

....my parents can't afford to pay an agent

.... I don't know if my application is good enough

.... I'm afraid I won't fit in

We want to attract qualified international students but....

...we don't have the budget to attend international fairs

...we're a small, independent school not well-known overseas

...we don't want to pay agents for students

myUface: What we do

- Provide students with an online tool to learn about US education and help them find university programs that fit their needs;
- Help universities internationalize their campus in an effective and cost effective way; and
- Empower EACs and expand the market for EAC services.

myUface: Our Goals

To help transform international student recruitment by:

- Addressing the needs of international students;
- Valuing the expertise of international advisors;
- Providing services that US universities want;
- Delivering online services in manner expected by today's students;
- Generating funding and financial support for educational advising and international student scholarships; and
- Never charging students for our services!

HOW?!

myUface & EACs

myUface believes that EACs are THE most important resource for US education overseas

- **Benefits to Advisors “Why Register as an Advisor?”**
 - Online interaction with students increases your geographic reach to underserved populations
 - Online application and relationship tracking
 - Access to automated statistical information and reporting information (which many funders love!)
 - Opportunities to publish advice on the myUface blog
 - Your students will vastly increase the number of possible universities interested in their candidacy.
- **Expectations of Advisors**
 - Follow the advising code of conduct in your interaction with all myUface students and universities.
 - Provide myUface with feedback and suggestions as to how we can improve our service to students, universities and advisors
 - Encourage your students to use the service if you find myUface to be helpful
 - To inform myUface of scholarship, fellowship or financial aid opportunities for students in your country
